President Wilson has maintained a friendly attitude toward Bulgaria. Great Britain and other entente nations are ready to accept an opportunity to make peace with Bulgaria-provided justice can be done to Greece and Serbia.

PUBLIC SALE advertising in the Gazette and Republican bring the crowds. In the days of automobiles, crowds. In the days of automobiles, the farmer has no time to stop along the road to read sale bills. He is coming to depend upon these papers to notify him of the sale dates and articles to be offered for sale. It's the buyer from a distance who sees your ad in this paper, who jumps into his auto and hustles to your sale, who pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use—the Gazette and Republican if you want the worth of everything you offer. Don't try to save on your advertising.

#### THOUGHT MAN WAS CRAZY

"I have suffered from stomach and liver trouble for years; the last two years people have been calling me crazy. The doctors could not do anything for me. The awful bloating or gas seemed to press against my brain and I could not think clearly. Three months ago a friend advised taking Mayr's Worderful Remedy and it has worked wonders in my case. All my bloating and suffering is gone and I feel as though newly born." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ail-ments, including appendicitis. -Here's a good example of how a public-spirited store serves you, and why and how it profits you to buy at such a store.

> Early last Summer a maker of quality Blouses, wrote us to the effect that he had made very extensive purchase of fine Silks [Georgette and Crepe de Chine] the forepart of this year; that both because of the large quantities ordered and the time at which the order was placed the prices were sharply under the prevailing market quotations; further, that he proposed to make up these Silks into Blouses for his regular accounts for delivery during the Fall and Winter months; that each month a certain quota made up in the latest and most-wanted styles would be delivered, and that as a result of the numerous savings that would result from the co-operative method the values would be the most unusual. #### HOLY LAND REGAINED AS 18,000 TURKE SURREN-DERED.

Nazareth, the holy shrine of civilication-indeed the whole of Israelite Palestine-is today in the hands of the British army.

A victory has been won there which will remain as one of the conspicuous dates in history. The christian powers again possess the Holy Land. Cavalry troops are gailoping to-

wards the shores of the Sea of Galliee. There is little left to oppose their sweep. The Turkish army, although found to be larger than expected, has been utterly broken. There are 18,000 actual prisoners west of the River Jordan, also 120 guns, four airplanes and an immense, amount of transport, including railway rolling stock and locomotives.

There is no estimate of the number of Turkish dead, but the whole Turkish army west of the Jordan has been blotted out.

The only possible points of escape or the remnants of the Turkish Army are across the Jordan. The British, however, hold all the fords and the few still left to the Turks will not allow the crossing of wheeled traffic.

> Early last Summer a maker of quality Blouses, wrote us to the effect that he had made very extensive purchase of fine Silks [Georgette and Crepe de Chine] the forepart of this year; that both because of the large quantities ordered and the time at which the order was placed the prices were sharply under the prevailing market quotations; further, that he proposed to make up these Silks into Blouses for his regular accounts for delivery during the Fall and Winter months; that each month a certain quota made up in the latest and most-wanted styles would be delivered, and that as a result of the numerous savings that would result from the co-operative method the values would be the most unusual. Washington, Sept. 25-Bulgarians are setting the stage for a peace move through which the allies may be able to block Germany's path to the east, entente diplomats indicated here today.

Reeling under the combination of a disastrous rout, simmering over eighty miles of Macedonia front, and seething discontent at home, Bulgarian officials are being pressed hard toward an appeal for peace, preliminary moves are already under way, it is understood.

Keen expectancy was aroused in diplomatic circles here today with the return of Bulgarian Minister Panaretoff, to Washington, after a summer's absence. What this diplomat will propose was a subject of wide spread discussion.

Bulgaria is now trying to get the allies ear. Whether she succeeds depends upon whether she will disgorge her conquest. Entente diplomats are understood to be inclined to give serious consideration to any genuine Bulgarian offer of peace—but only on strict conditions.

President Wilson has maintained a friendly attitude toward Bulgaria. Great Britain and other entente nations are ready to accept an opportunity to make peace with Bulgaria—provided justice can be done to Greece and Serbia.

Bulgaria's answer to the Austrian bid for a peace conference is believed to be preparatory to an appeal for peace. Czar Ferdinand's government goes on record in this reply as approving President Wilson's war aims.

#### LET THIS CREAM **CURE YOUR PIMPLES**

For several years past Sayre & Hemphill have done a big business in selling Hokara, the skin healer that has won so many friends in Xenia. It has been found to heal not only all minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., but also the worst sores, ulcers, or even chronic eczema and salt rheum. There is yet to be found any form of wound or disease affecting the skin or mucous membrane that Hokara does not help, and its action is so quick hat those who try it are simply delighted with it right from the start.

In spite of its unusual curative powers, the price is trifling. To convince every one of its merits, Sayre & Hemphill will sell a liberal-sized jar for 35c. And remember that if you do not think it does what it claims. you can get your money back. You certainly can afford to try it on this

PUBLIC SALE advertising in the Gazette and Republican bring the crowds. In the days of automobiles, crowds. In the days of automobiles, the farmer has no time to stop along the road to read sale bills. He is coming to depend upon these papers to notify him of the sale dates and articles to be offered for sale. It's the buyer from a distance who sees your ad in this paper, who jumps into his auto and hustles to your sale, who pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use—the Gazette and Republican if you want the worth of everything you offer. Don't try to save on your advertising.

Which Offers You the New Styles at the Moderate Prices Prevailing a Year Ago

-Here's a good example of how a public-spirited store serves you, and why and how it profits you to buy at such a store.

> Early last Summer a maker of quality Blouses, wrote us to the effect that he had made very extensive purchase of fine Silks [Georgette and Crepe de Chine] the forepart of this year; that both because of the large quantities ordered and the time at which the order was placed the prices were sharply under the prevailing market quotations; further, that he proposed to make up these Silks into Blouses for hisregular accounts for delivery during the Fall and Winter months; that each month a certain quota made up in the latest and most-wanted styles would be delivered, and that as a result of the numerous savings that would result from the co-operative method the values would be the most unusual. We, of course, accepted the proposal, and the second allotment of the Blouses has just arrived and will go on sale to-

—Just another word: The Blouses are made of fine, durable fabrics, the workmanship is excellent, and they are all out true to size so as to insure perfect fitting.

The prices are \$4.00 and \$5.00 -Quantities are limited and no more of the same styles will be obtainable.

#### THOUGHT MAN WAS CRAZY

"I have suffered from stomach and liver trouble for years; the last two years people have been calling me crazy. The doctors could not do anything for me. The awful bloating or gas seemed to press against my brain and I could not think clearly. Three months ago a friend advised taking Mayr's Wonderful Remedy and it has worked wonders in my case. All my bloating and suffering is gone and I feel as though newly born." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Sayre & Hemphill, and druggists everywhere.

# A Remarkable Service on Silk Blouses

Which Offers You the New Styles at the Moderate Prices Prevailing a Year Ago

-Here's a good example of how a public-spirited store serves you, and why and how it profits you to buy at such a store.

> Early last Summer a maker of quality Blouses, wrote us to the effect that he had made very extensive purchase of fine Silks [Georgette and Crepe de Chine] the forepart of this year; that both because of the large quantities ordered and the time at which the order was placed the prices were sharply under the prevailing market quotations; further, that he proposed to make up these Silks into Blouses for his regular accounts for delivery during the Fall and Winter months; that each month a certain quota made up in the latest and most-wanted styles would be delivered, and that as a result of the numerous savings that would result from the co-operative method the values would be the most unusual. We, of course, accepted the proposal, and the second allotment of the Blouses has just arrived and will go on sale to-
